

OBO connected with South East Asia

THINK CONNECTED.

Think connected.
Conducting electricity. Routing data.
Controlling energy.

Welcome to OBO

Discover what drives our company. How we bundle our high-quality products into innovative systems. How our networked solutions create the electrical infrastructure of buildings in all kinds of projects throughout the whole world.

Local presence.

2,200 employees.

In over 60 countries.

35 subsidiaries and a Hub in Singapore for the APAC market.

The values of our company are supported by continuous customer focus. For us, this means that whenever borders open and new markets are created, we will be there. This local presence has proved its worth: OBO is present on every continent – with more than 2,200 employees in over 60 countries.

Partnership

For us, active customer focus means:
offering help and advice whenever we are needed

Customer focus and credibility

Friendliness, reliability and competence ensure high levels of acceptance, credibility and ongoing partnerships.

The basis of these shared values is the continuous alignment of our company to the wishes and requirements of our customers. The close partnership with our customers is paramount for us. We explore new paths for its optimisation.

Help and advice

We are there when you need us. Do you have any questions about our products? Do you need help with installation? Do you need planning support for complex projects? Our employees will support you in every phase of your project.

The continuous improvement of our support in each phase of any cooperation helps us to lay the foundations for a real partnership.

Speed and reliability

Optimised processes and sophisticated logistics ensure that OBO products around the world are in the right place at the right time. In the case of large-scale projects, we can offer comprehensive support – from planning through to installation.

Solutions

Our systems for your project

Think connected.

We connect our systems into solutions for your complete project. From office buildings, through infra-

structure projects to wind power plants. This means that we can offer you the entire electrical infrastructure from a single source.

Below you can find an overview of our currently available solution brochures.

Industrial and general plant construction

- Tunnel construction
- Food industry
- Production and industry

Mobility

- Shipbuilding industry
- Airport and railway stations

Energy, supply and disposal industries

- Photovoltaic systems
- Power stations
- Wind power plants
- Data centres
- Biogas plants
- Oil and gas industry
- Switching cabinet construction

Service and consumer goods / Living

- Office buildings
- Residential buildings
- Event and sports venues
- Health care

30,000 products

This is OBO

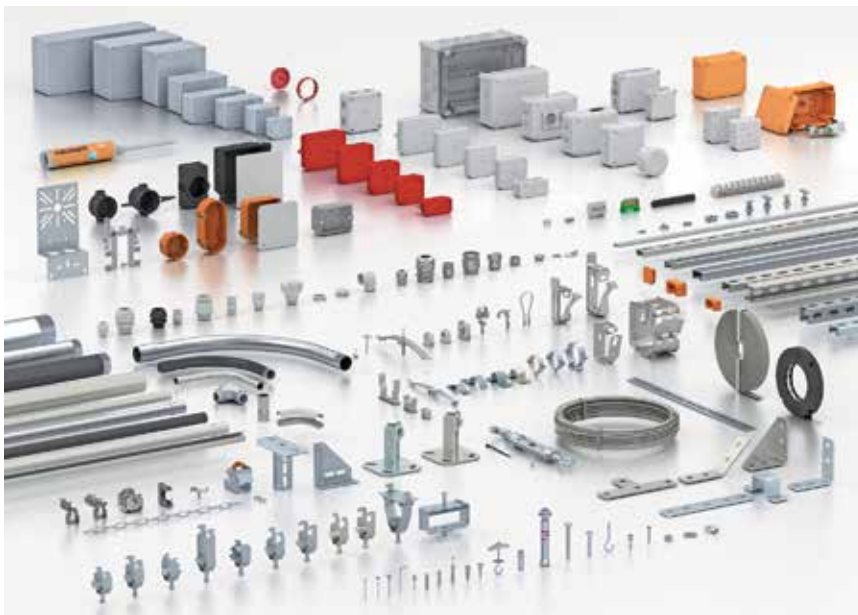

The complete product range with perfect support

OBO systems provide connections. In an abstract and literal sense. They create mechanical or electrical

connections. Reliable, safe and of the highest quality. Product features such as installation speed, load capacity, functionality, availability and safety are at the forefront of

every innovation. Discover the world of OBO systems, on the internet or directly from us.

VBS | Connection and fastening systems

Junction box systems

Concealed and cavity wall systems

Terminal systems

Cable fastening systems

Cable and pipe fastening systems

Pipe systems

Support clamp systems

Rail systems

U-clamp systems

Screw-in and knock-in systems

TBS | Transient and lightning protection systems

Surge protection, energy technology

Surge protection, photovoltaics

Surge protection device for data and information technology

Protection and spark gaps

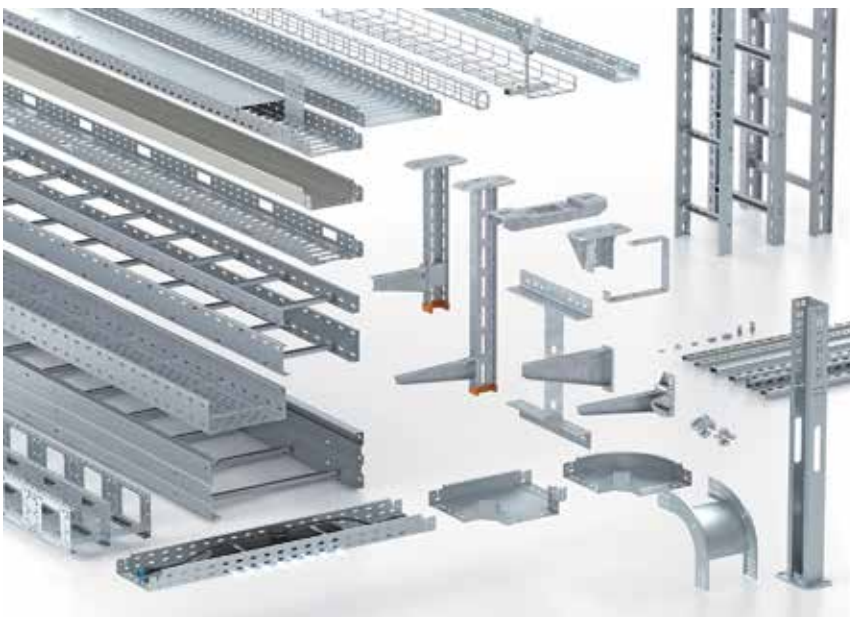

Measuring and test systems

Equipotential bonding systems

Earthing systems

Interception and arrester systems

KTS | Cable support systems

Mounting systems

Fastening systems

Cable tray systems 

Mesh cable tray systems

Cable ladder systems

Wide span systems

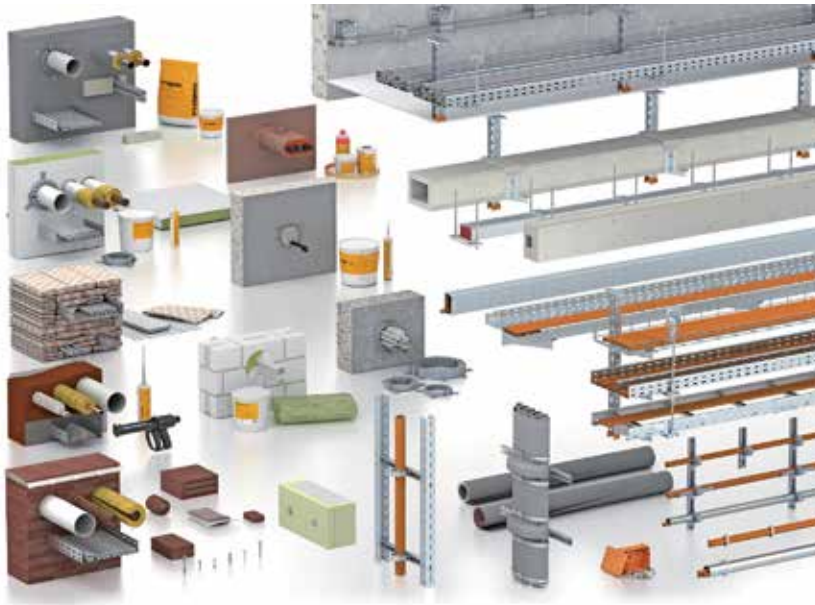

Luminaire support systems

Modular systems

Stainless steel systems

BSS | Fire protection systems

Insulation

Escape route installations

Fire protection duct

Function maintenance cable tray

Function maintenance cable ladder

Function maintenance vertical ladder

Function maintenance individual routing

Function maintenance metal duct

Function maintenance junction boxes

Anchoring

LFS | Cable routing systems

Plastic cable trunking

Metal cable trunking

Skirting trunking

Wiring duct, Dahl

Device installation trunking and ducts,
45 mm mounting opening, plastic and
aluminium

Device installation trunking and ducts,
80 mm mounting opening, plastic,
aluminium and sheet steel

Service pole systems

Device installation systems

U-clamp systems

Screw-in and knock-in systems

EGS | Device systems

Socket systems

Switching and connection systems

Data technology systems

Concealed and surface-mounted
adapter systems

Workplace systems

Industrial and special connector systems

Energy distribution systems

UFS | Underfloor systems

Screed-covered duct systems

Screed-flush duct systems

In-concrete duct systems

On-floor installation trunking systems

Service units

Frame cassettes and height-adjustable
cassettes

Heavy-duty cassettes

Installation systems for accessories

Outlets and complete solutions

Systems for raised and cavity floors
